GENERAL INFORMATION

Plan Report ID Number	20240926atg
Developer Name	Advanced Technologies Group, LLC
Product Name(s)	ATG EHR
Version Number(s)	10
Certified Health IT Product List (CHPL) ID(s)	15.02.05.2670.ADTG.01.02.1.220118
Developer Real World Testing Plan Page URL	https://a-t-g.com/offender-management-suite/electronic-health-records/ehr-onc-rwt/

JUSTIFICATION FOR REAL WORLD TESTING APPROACH

On the specified testing date, the process will be executed to create EHI data for both a single and multiple patients in the EHR.

To demonstrate successful Real World Testing, the export file will be reviewed and validated that the process completed without developer assistance.

STANDARDS UPDATES (INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS (SVAP) AND UNITED STATES CORE DATA FOR INTEROPERABILITY (USCDI))

Standard (and version)	No standards were updated
Updated certification criteria and associated product	
Health IT Module CHPL ID	
Method used for standard update	
Date of ONC ACB notification	
Date of customer notification (SVAP only)	
Conformance measure	
USCDI updated certification criteria (and USCDI version)	

MEASURES USED IN OVERALL APPROACH

Description of Measurement/Metric

Measurement/Metric	Description
Measure 1 This will demonstrate the portal as a key tool for the clinician to export electronic health information (EHI) for a single and multiple patients at any time the user chooses without developer assistance.	Can create patient EHI data. Export the patient EHI data for single and multiple patients without developer assistance. EHI exported data are available in both computable and human readable format.

Associated Certification Criteria

Measurement/Metric	Associated Certification Criteria	Relied Upon Software (if applicable)
Measure 1	§ 170.315 (b)(10)	None

Justification for Selected Measurement/Metric

Measurement/Metric	Justification
Measure 1 Staff member is observed successfully exporting data files on demand.	Exporting data on demand is an essential requirement for clinical practice with a certified ATG-EHR. A clinician needs the capability of doing this immediately and successfully without developer assistance.

Care Setting(s)

Care Setting	Justification
Correctional Facilities	Exporting electronic health information (EHI) data by clinicians for inmates on demand as they leave prison custody. The Correctional Facilities care setting is the only care setting the product is marketed to.

Expected Outcomes

Measurement/Metric	Expected Outcomes
Measure 1	The Real-World Testing will demonstrate that clinicians are enabled to export patients EHI data. They can: 1. Create patient EHI data 2. Export EHI data for both single and multiple patients at any time without developer assistance 3. EHI exported data are available in both computable and human readable format Expectation is low utilization by clinicians with a high success rate.

SCHEDULE OF KEY MILESTONES

Key Milestone	Care Setting	Date/Timeframe
Perform testing.	Correctional Facilities	Mar 2025
Perform testing.	Correctional Facilities	June 2025
Perform testing.	Correctional Facilities	Sept 2025
Perform testing.	Correctional Facilities	Dec 2025
Submit Real World Testing report to ONC-ACB	Correctional Facilities	Jan 2026

ATTESTATION

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the health IT developer's Real World Testing requirements.
